

Mask Up

Protect yourself... protect others.

Protect Yourself from Aerosols
Aerosols are tiny droplets expelled when we breath. These droplets can float in the air for hours and be inhaled by others not using a face covering. An infected person (*who may feel healthy*) can spread the Covid virus without knowing it.

Protect Each Other
Always cover your nose and mouth

Be Smart-Stay Apart
6 feet is good, 10 feet is better

Be Safe
Slow down and warn others when passing. Keep your distance

Possibility of Spreading the Virus

	High	
<small>COVID-19 Carrier</small>		<small>Healthy Person</small>
	Lower	
<small>COVID-19 Carrier</small>		<small>Healthy Person</small>
	Lowest	
<small>COVID-19 Carrier</small>		<small>Healthy Person</small>

Mask Up

Protect yourself... protect others.

Wear a mask or face covering, even on trails. **Microscopic aerosols can linger for hours.**

Social Distancing

6 feet is good, 16 feet, better...

Always keep pets on leash and at least 6 feet from others.

Avoid crowds and groups recreating. Stay 6 feet away.

Trash

This is a waste-free park. Leave no trace. Take it with you.

Pick up after your pet and dispose of properly.

Hygiene

Wash hands or apply sanitizer after touching shared surfaces.

The smaller size (8" x 20") is ideal for locations where sight-lines are more easily controlled.

The larger panel (12" x 30") works well at trailheads where visitors gather. The larger panel size attracts attention.
